

Leadership Development

Grow your leaders virtually with Class

Culture and performance are critical to your organization's success and your leaders are the lynchpin in supporting that. Class provides an environment to develop your leaders and managers in a unique way.

Go beyond conventional elearning

Deliver truly interactive content and facilitate meaningful discussions with Class.

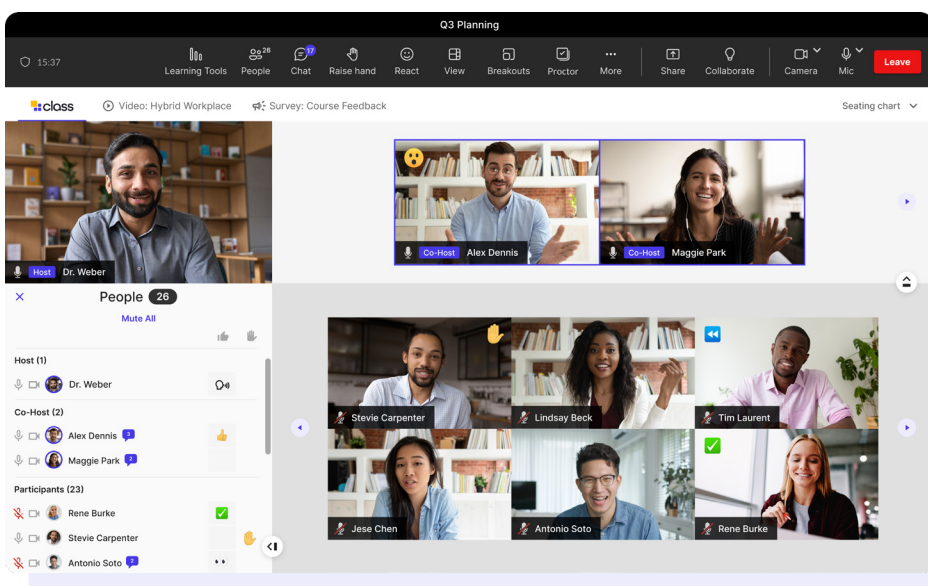

Get real-time insights

Let talent development facilitators know exactly where to focus their attention with real-time insights.

Enable peer mentorship at scale

Leveraging our enhanced breakout rooms you can enable peer mentorship to happen at scale.

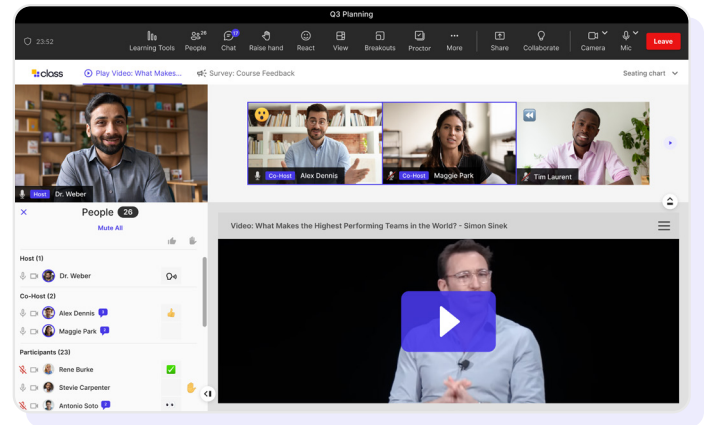

“Our research highlights the vital role of self-discovery in any sort of leadership journey...And, thanks to the pandemic-era rise of remote work, we now know we don’t need to be in the same room as our peers or our coach.”

Master Authentic Conversations

- Use “Front of Room” to spotlight scenario-based conversations for practice and for participants to observe
- Allow participants to easily add personal notes to the downloadable automated transcript of training conversations
- Easily share multimedia content directly within the app to introduce case examples

Interactive Content Sharing

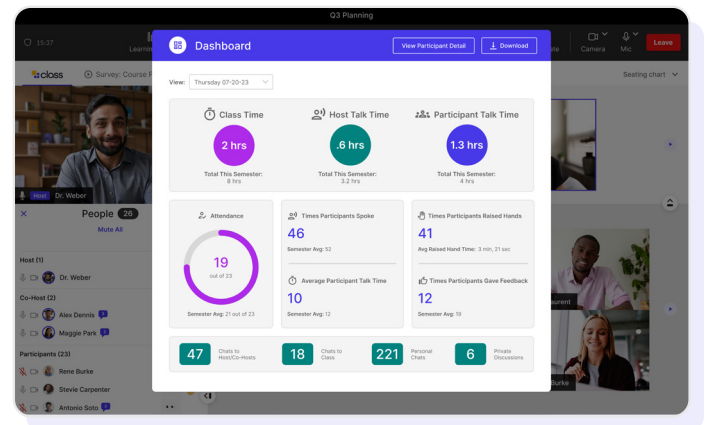

Enhanced Breakout Rooms

Enhance Group and Peer Connections

- With enhanced breakouts, hosts can directly share scenario-based exercises to specific breakouts
- Allow participants to select breakouts based on topics by interest or desired areas of improvement
- Easily allow for breakouts to share what results or work was completed back to the rest of the main room

Measure the Results

- View engagement and participation metrics for each participant in real-time
- Provide custom reporting to sales managers for recognition and additional support
- Export data to a csv. or with APIs to correlate it with performance statistics
