Class

The Next Generation Virtual Classroom

Your all-in-one platform for digital live learning. Class makes online teaching and learning feel more like an in-person classroom experience.

Maximize Engagement

Deliver an engaging and connected experience for learners. Increase engagement and improve retention of concepts with breakout rooms, live assessments, and more.

Enable Effective Instruction

Focus on personalized teaching with integrated learning tools. Share videos and websites, deploy polls and quizzes, and create and automatically grade assignments.

Measure Success

Identify and redirect learners by their level of engagement. Utilize session data that provides insights on participation, talk-time, and more to improve learner outcomes.

> "Imagine your standard web conferencing tool. Now imagine it like it's 2.0...Class is taking the virtual learning environment to another level that you can't do with just your regular meeting tools."
>

> Sr. Dir. of Talent Development, Schoox

WHITEBOARD

Drive active online learning that keeps learners engaged

Personalize online learning in dynamic and engaging ways with interactive site-sharing for highly collaborative sessions.
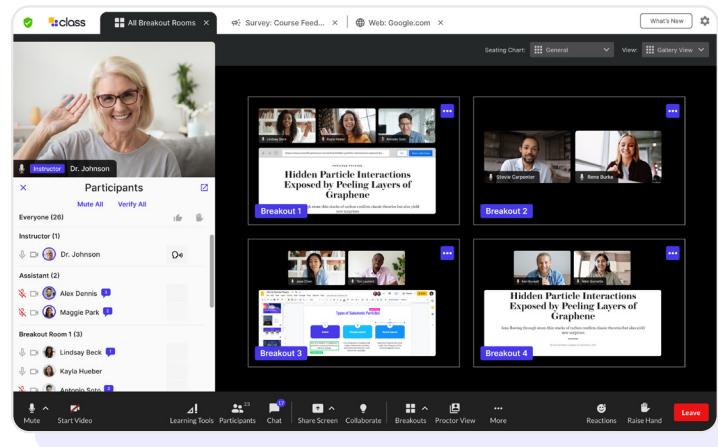

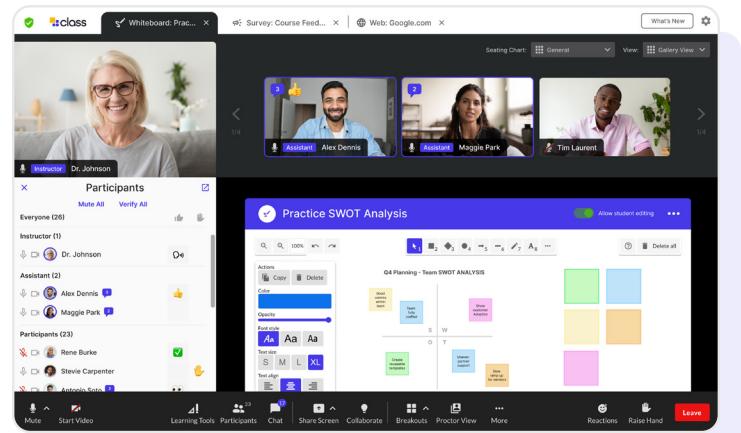

ENHANCED BREAKOUT ROOMS

Launch unique content to each breakout room

Deploy differentiated content directly to each breakout room and monitor activity across all rooms at once with enhanced breakout rooms.
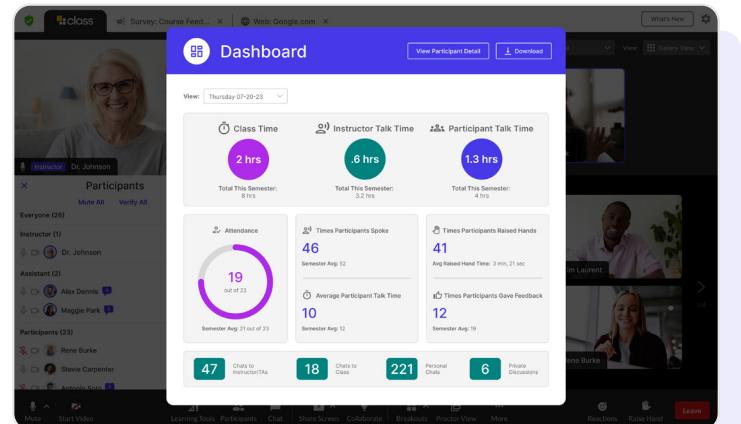

DATA DASHBOARD

Improve learner outcomes with impactful metrics

Track and report on course analytics—including learner participation, speaking time, and attendance—to identify learning gaps and measure impact with our data dashboard.
